Jashwanth Raj Kottapalli

Python Developer

+91 7095525097 | jashu0306@gmail.com | linkedin.com/in/jashwanthraj
Suchitra, Telangana - 500067, INDIA

Objective

Motivated and detail-oriented B.Tech graduate in Computer Science & Engineering with a strong foundation in full-stack web development, problem-solving, and databases. Seeking an entry-level developer role to contribute to scalable, business-oriented applications while continually upskilling in emerging technologies like React and Micro Frontends. Adept at working in collaborative environments, with strong communication skills, a proactive mindset, and a passion for continuous learning and improvement.

Education

- **Narasaraopeta Engineering College** Nov 2021 – Apr 2025
  Bachelor of Technology in Computer Science and Engineering (AI) — CGPA: **7.7/10**

Projects

RESTful backend API for a blogging platform Tools*: Python, Fast API,* **SQL Alchemy, JWT (JSON Web Tokens), Uvicorn.**

- Developed a scalable RESTful Blog API using FastAPI and SQLAlchemy, following modular backend architecture principles.
- Implemented secure JWT authentication and OAuth2 password flow with bcrypt-based password hashing.
- Designed Role-Based Access Control (RBAC) to manage user and admin permissions for protected API endpoints.
- Built and tested CRUD operations for posts with relational database modeling and user-post ownership validation.
- Integrated Open API/Swagger documentation for API testing and improved developer usability and maintainability.

Image-To-Text Intelligence – Dynamic Caption Generator
Tools: Python, CNN, LSTM, HTML, CSS, Java Script .

- Built an end-to-end deep learning pipeline for image-to-text captioning, achieving **75% BLEU-1**.
- Automated caption generation, **reducing annotation time by 50%**, and accelerating dataset labeling.
- Led frontend design and implementation to deliver a smooth UI for caption review and user interaction.
- Performed comprehensive data cleaning and preprocessing to ensure high-quality training inputs and improved model robustness.

Work Experience

---

369 Herbal's — Full-Stack Developer - Intern (Remote) Aug 2024 – Mar 2025

- Developed backend modules using **Python (Django)** and **MySQL** for an e-commerce prototype.
- Implemented CRUD operations and integrated frontend components.

- Delivered a **fully version-controlled prototype on GitHub**, enabling rapid deployment of an Ayurveda product storefront.
- Gained experience in debugging, testing, and improving application performance.

Cloud Automation Internship — Data Analytics Intern (Remote) Jan 2024 – Mar 2024

- Consolidated MySQL and Python workflows, ensuring **100% consistency** across **50K+ records**.
- Automated recurring analytics tasks, saving **10+ hours/week** and boosting team productivity by **15%**.
- Built and deployed Tableau dashboards, improving stakeholder decision-making speed by **30%**.
- Increased reporting accuracy by **20%** by validating and cleaning datasets before analytics runs.

Skills

Programming: Python
Web Technologies: HTML, CSS, JavaScript
Frameworks & Tools: Flask, AWS, Django, REST API, Git, GitHub
Database: SQL, MYSQL
Core Concepts: OOPs, Data Structures, Algorithms, SDLC
Data Science & ML: Python, Power BI, Numpy, Pandas, Scikit-learn, Data Visualization

Certifications

- IBM Data Science Practitioner Certificate.
- AWS Academy Graduate – AWS Cloud Architecting
- NPTEL — The Joy of Computing Using Python. .

Soft Skills

• Teamwork, Adaptability, Communication, Leadership

Professional Traits

- Strong foundation in problem-solving and analytical thinking.
- Effective communicator with ability to collaborate in Agile teams.
